

Spin Art Rental Instructions

Equipment Needed:

Spin Art Unit
4 Paint Bottles
Picture Cards and Frames
Extra Paint

Set Up Instructions:

1. Place spin art unit on a table top.
2. Plug in unit to nearest available outlet.
3. Have your paint cards and frames nearby for easy access.
4. Have an area NOT accessible to through-traffic for drying pictures.
5. Have a pencil/pen for writing children's names on the card back.
6. Make sure paint bottles are in recessed area to front of game.

Operating Instructions:

1. Write artists name on card back and place in holder.
2. Turn on machine (each spinner has its own switch at rear of unit).
3. Artist uses desired colors to custom make a picture.

NOTE: It is preferred that:

- a. an artist uses a certain color only once.
- b. an artist doesn't squirt a lot of paint on the card.
- c. hat you allow artist about 15-20 seconds per turn.

Reasoning:

- a. Final product looks better with minimal paint on the card.
 - b. The drying time is shorter.
 - c. You make more money with more artists painting faster. The more time spent painting usually results in too much paint on the card and produces a less desirable result.
4. Take picture out of holder and place in drying area for 5-10 minutes.
 5. Place card in frame (check artists name for correct picture.)
